

Canadian Kindness Idea Leader

by Grade 4K class

Dr. Clark School, Fort Mc Murray

- Dr. Clark School will be putting in two raised gardens. The money for these gardens is in place. One will be an Indigenous healing garden and the other a floral garden. Our kindness idea is to install an arbor between these two gardens that has a bench in the middle. Students could sit on the bench to visit and enjoy the gardens. We envision plants/vines growing on the arbor, such as bean vines or hops. If there is money to spare, we would like to see a bird bath installed. Creatures, plants, and the environment are all part of a child's education. This would also be a great spot for outdoor education for every grade level.

No back so
that students can
sit and face either
direction.
